Dr. Freddie Ulan

In his opening address to Symposium attendees, the founder of *NUTRITION RESPONSE TESTINGSM* Dr. Freddie Ulan stated: "By reports from our clients, we see that we have a standard approach to *NUTRITION RESPONSE TESTING* that has a consistent outcome when applied exactly. This means that we are capable of moving forward as a united force to establish the new healthcare paradigm that is our purpose. At this time, we need to come together on this purpose like we've never come together before to extend our help broadly and that is the reason for this Symposium." If you need help in applying Nutrition Response Testing to a uniform and standard result, contact your Service Consultant at 1-866-418-4801 today!

December 2 through December 5, 2010: UNS Clients from all over the country gathered in Clearwater, Florida for the 2010 Symposium!

Creating a New Healthcare Paradigm – NOW!

In a shoulder-to-shoulder effort, UNS executives, staff and clients are taking true responsibility for the future of healthcare by ensuring that *NUTRITION RESPONSE TESTING* reaches the highest number of people possible. Experience has already proven that a future of drugs, surgery, pain and disability can be avoided for millions of people when they are shown how they can regain true health. To recharge their purpose and strengthen their own power and the power of the group, UNS clients joined Dr. Ulan and his staff for the 2010 Symposium.

Below, the venue for the 2010 Symposium, the Sheraton Sand Key Resort, located right on the Gulf of Mexico, glows in the setting sun.

UNS clients flew in from all around the country to arrive in sunny – but chilly! – Florida. One attendee flew in from Alaska but the longest voyage was made from Vette, Norway. To the right, Dr. Brian Walsh signs in after a quick drive across Florida.

UNS Clients Enjoy Message on the Power of the Basics

The first day, Dr. Ulan and UNS President Arte Maren emphasized the simple basics that create real power in a practice. And the clients responded with enthusiasm! "Every time I reconnect with UNS via a seminar or symposium, I come back home with new zeal, resolve and certainty." *Mark Zumbagen, MD.* "I just love to be recharged when I come!" *Shannon Eggleston, DC.* "I feel fortunate to be part of such a sincere, dedicated and powerful group." *Dennis Rebrig, DC.* "This helps me get ready for my next steps in practice growth." *Thomas Ianniello, DC.*

Above: As the room fills up on Day One, Dr. Cordie checks out her "Top Secret" briefing book. **Below:** Drs. Blaha, Piccoli, Fenander and Palmer at the ACT Reunion. **Bottom:** Drs. Kile, Caprile and Serra have a chance to catch up on recent events.

Special Agents Maren and Ulan from Mission Operations Central brief attending agents on their important roles in the creation of a new health care paradigm. Below, Special Agent Lori Puskar peeks out at the arrivals before the briefings start.

On a Mission for the "Innate Intelligence Agency"

While our Mission is of paramount importance, we saw no reason we couldn't have a little fun with the message. And so the *On a Mission* theme was born. From speakers in their spy garb to Top Secret Mission Orders, the 2010 Symposium reported on the ways we are turning what some people might think is *Mission: Impossible* – the creation of a new healthcare paradigm – into a reality!

As a united and dedicated force for health, we are achieving our goal, as evidenced by the wins in practice described on Day One by Dr. Jean-Guy Daigneault, and Dr. Cori Stern, pictured at left in her spy garb. Next, UNS President Arte Maren reminded the attendees of the Mission Critical Secret of success and Dr. Puskar provided insight into handling difficult cases.

Special Offer!

Don't miss your chance to book your seat for the 2011 Symposium for just \$595! Call to reserve your seat before this limited-time offer expires!
